THE WONDER OF THE CROSS

As we approach Easter I have been reminded of the pain, passion and power of the cross. When we look to the cross, we must be reminded of the pain Jesus endured for our salvation, the passion and great love that led Him to endure such pain, and the power at work in our lives as a result of the cross

The cross must always convince us of the love the Father has towards us and the great lengths He has gone to have a relationship with us. Gazing at the cross must illicit only one appropriate response; wonder and love towards our God and King.

What is the gospel (good news) and why is it important to humanity?
